Just a few short steps away...

Information you will need during the application process

To make this process faster and easier, please have the following information handy:

- Social Security Number
- Valid government issued ID
- Information for funding your new account (checkbook, existing GLCU account number, account information from another financial institution)

Important Information About Procedures for Opening a New Account

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account. What this means for you: When you open an account, we will ask for your name, physical address, date of birth, and other information that will allow us to identify you. We may also ask to see your government issued identification.

For your protection this system is protected with enhanced security. During the application process you will be asked questions that only you should know the answers to. This will help us validate your identity.
